- **Certification Alerts**
- **Background Checks**
- **Job Matching**

Healthcare staffing companies can now accommodate all of their staffing needs with the only industry-specific one-stop software solution.

Streamline Recruitment, Accelerate Nurse Placement, Reduce Overhead, Maximize Efficiency and Profitability.

Reduce Paperwork

Quickly approve the highest quality caregivers with online applications, background screening, competency testing and electronic signatures.

Reduce Work Load

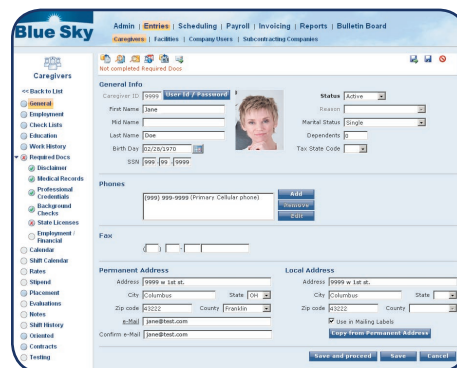

Communicate easily with hospitals and caregivers through automated messaging. Run custom reports on any data in the system.

Provide Quality Staff

With competency testing and credential expiration alerts you will be able to provide quality caregivers while maximizing your billable hours.

Easy to Use

Staffing-specific interface makes it easy to manage caregivers for multiple facilities. Free customer support and online tutorials. Flexible enough for both large and small staffing firms.

A complete file is maintained for every caregiver, facility, and sub-contractor. Review shifts, pay rates, bill rates, credentials, work history, education and so much more from one easy to use interface.

Pricing:

Users:	Monthly Cost Per User:
1-5	\$91.67
6-20	\$83.33
21-50	\$75.00
51-100	\$66.67
101-200	\$58.33
201-500	\$50.00
501+	\$41.67

BlueSky Lab:

A beta staffing vendor was able to successfully manage \$20 million in revenue with only a staff of four using BlueSky Technology.
