- ▶ Receive performance improvement tools and customized procedures that achieve compliance
- ▶ Increase profits and decrease costs
- ▶ Improve efficiency of operations and effectiveness of internal processes
- ▶ Become a better company and attract more high quality clients
- ▶ Let our 20 years of staffing industry experience and 100% certification success rate work for you

In the next 18 to 24 months hospitals will do business exclusively with healthcare staffing agencies that are Joint Commission certified.

Your competition is getting certified as you read this.

Performing these six steps will get your organization off to a good start.

Or, you can just let us do it!

1) READ THE STANDARDS MANUAL FROM COVER TO COVER

This is absolutely necessary for an organization to understand what is expected from the Joint Commission.

2) IDENTIFY A PROJECT MANAGER

This person and likely 1 to 2 others will be among your best and brightest and will dedicate 75 to 100% of their time to this project.

3) PERFORM A GAP ANALYSIS

Identify your organizations strengths and weaknesses according the Joint Commission standards. Review each standard one by one.

4) START YOUR PERFORMANCE IMPROVEMENT PROCESS

Gather as much existing data as possible then put tracking systems in place for each of your measures. Gather data for at least 4 months to ensure reliable tracking and accurate results.

5) PERFORM INITIAL FILE REVIEW

This will help you gauge roughly how much labor you have in store, this is the heart of the review, and the most time consuming.

6) PERFORM POLICY & PROCEDURE REVIEW

If you don't have policies start creating them according the Joint commission's specifications. The Standards manual has identified each standard that requires a specific policy.

Clinical Oversight

For staffing agencies who do not have RN on staff, this service Includes:

- Written and verbal responses to issues clinical or compliance in nature
- Interaction with state board or any appropriate licensing or certification entity
- Responses to do not sends or do not returns
- Counseling and termination of clinical personnel
- Interviewing and qualifying clinical candidates
- Reporting of performance improvements to the Joint Commission
- Monitoring of current Joint Commission standards and expectations and assistance with implementation

Contact one of our nationally experienced RN executives to get details on making your Joint Commission survey cost-effective and painless.
